Grant first. Maybe the exide manager too.

I will try but not sure of Harry and Steve's availability before Friday. Who are the 'others' you would want us to talk to about their organization?

Another item

You should set up a call with grant and include Harry and Steve and talk through the incident command page he sent us.

I realize it was very generic and agree with Steve's observations. I think we may need to guide them through a more detailed framework that includes other agencies etc. try to talk with grant and others before Friday.

Thanks – let's hold off an invite. We should be finding out if June 1 works for all sides soon (Alexis has a call with Matt R tomorrow and can check, as well). I spoke to LA County (Bellomo) and am awaiting a response. I can call Grant Cope too tomorrow.

Subject: Exide Technologies Letter and Meeting

Jessica and Abi – attached is a letter inviting the state and LA County to a meeting to discuss path forward on Exide.

The letter incorporates comments I received from Enrique. I have not heard anything from Land Division re: any comments.

If we want to schedule this meeting on June 1, then the letter will have to get out asap. It is coming from Alexis so I am going to turn it over to you all for finalizing and mailing, if that is ok.

You might want to run it by Jeff Scott one more time. Also, check Alexis' signature box, I was not sure about formatting. Also, I put my name as EPA poc but I am not volunteering for that☺

But of course, I am happy to help. Enrique wants me on point for Exide as far as SFD goes.
